Burris Logistics Philadelphia, PA

ASRS Freezer - Twintec FREEPLAN® Slabs on Insulation and Grade

Burris Logistics is one of the world's leading cold storage distribution and direct-to-consumer fulfillment companies. As such, they strive to provide their clients with reliable and efficient service through their many locations up and down the East Coast.

Their newest location Honor Foods in Philadelphia, PA features 33 loading docks and state of the art warehousing and inventory technologies. This 200,000 sq. ft. facility will allow Burris to provide an exponentially improved level of service to their clients with significantly shorter wait times for pick-ups and deliveries.

Twintec was the chosen specialty concrete floor slab provider for the construction of this facility. The floor slab was reinforced with 66 lbs/yd³ of AFT 1/50 steel fibers. These specifications will provide the end user with a slab they can rely on, designed to minimize maintenance and repair costs for the future of the building.

Project Data

End User:	Burris Logistics	Slab Depth:	8"/6" thick

Area:	198,500 ft ²	Fibre Dosage:	66 lbs/yd ³
Pour Days:	19	Completion Date:	August 2020

Project Spotlight

Twintec is unique worldwide in offering a total responsibility package of Design-Build-Guarantee.

Design

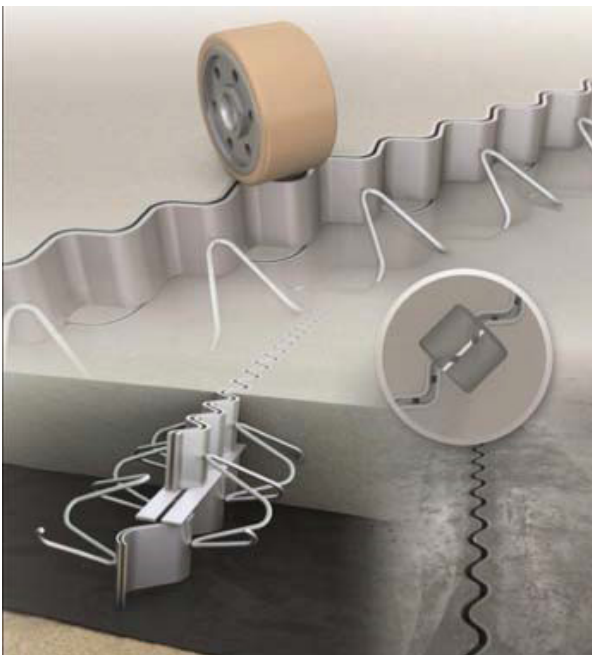

Twintec is a leading specialty concrete engineering and install firm in the USA. At Twintec, we believe our in-house engineering expertise goes a long way in assisting our clients. Our unique Twintec specialty slabs are designed to minimize future costs such as maintenance and repairs. Once a cold storage facility is operational, slab repairs, which involve materials and processes that are innately temperature-sensitive, become quite problematic. Such repairs can cause operational shutdowns that quickly jeopardise business profitability and operational capabilities. This is why it is so critical to design a floor that will greatly reduce the need for these future repairs.

Build

Twintec provides state-of-the-art install operations. Twintec USA crews are professionally trained to the global Twintec standards in terms of safety, quality, and operational excellence.

Guarantee

Twintec provides a unique 5-year guarantee on their finished FREEPLAN products and design-build services.
